1. Google Project Management Certificate
2. React Certificate | CapacityBay International
3. Power BI Data Virtualization | PwC
4. Linux: Files and Permissions
5. Agile Job Simulation | JPMorgan Chase

PROFESSIONAL EXPERIENCE

TheRecipeBook

Final Year Project

October 2024 – May 2025

- Designed and developed a web-based meal planning and recipe management system with multilingual support, weekly meal planning, and ingredient-based shopping lists.
- Implemented secure authentication, personalized dashboards, and a fully responsive user interface.
- Built using React.js, Node.js, Express.js, MongoDB, Tailwind CSS, and custom CSS. [View project](#)

YACSN Website Upgrade

Freelance Web Developer

June 2024 – September 2025

- Led the year-long upgrade of YACSN's corporate website as a freelance developer, managing the project from initiation to successful delivery.
- Coordinated a small developer team, taking primary responsibility for project planning, execution, and client satisfaction.
- Delivered a modernized, high-performing website while strengthening skills in collaboration, attention to detail, and accountability. [View project](#)
